Shipping Cartons  
Distant Local

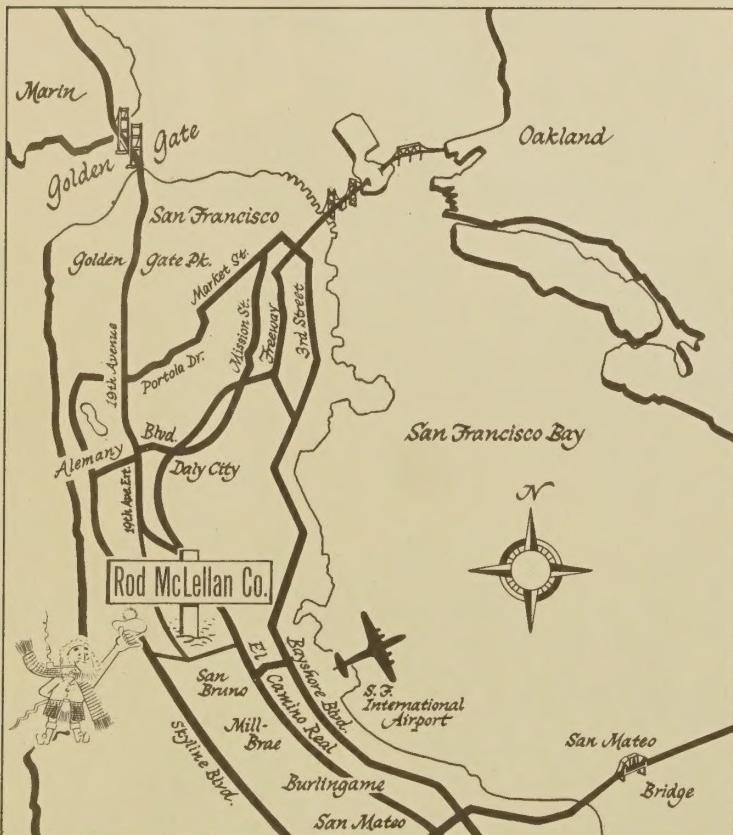

## Shipping

We do not charge for packing. Local gift shipments are packaged in attractive containers which you see pictured to the right, above, and distant shipments travel safely in our special orchid cartons, all over the world. A three page folder of GROWING INSTRUCTIONS sent FREE with all orders—the complete information you need to grow your orchids.

We ship VIA RAILWAY EXPRESS, unless otherwise directed, and guarantee safe arrival. Air Shipments are about TWICE THE COST of rail, outside of California; except for large orders, when reasonable rates to most metropolitan points may be obtained by shipping air freight. We do not suggest parcel post shipment except where absolutely necessary, on plant shipments. Should your plant arrive damaged, please request inspection from the carrier, and SEND THEIR REPORT TO US. We will replace the damaged plants, BUT NEED THIS CARRIER REPORT IN ORDER TO DO SO.

Orders received AFTER DECEMBER 20th which are destined for the colder areas of the world, will be HELD FOR SHIPMENT until March 15th, UNLESS CUSTOMER REQUESTS SHIPMENT AT HIS OWN RISK. The same applies to shipments where route in transit is into the colder areas.

## WHERE TO FIND US

TOO BUSY TO COME IN?  
CALL PLAZA 6-0330

## Policy

It is our policy to give you all the information we are able to give on anything that we sell; to fill your orders with the same care you would use if you were making your selection personally, and to give you any help with your cultural problems that we are able to give. We will welcome any suggestions that you might have from time to time for improvement of our service to you.

Rodco, The Budget Man

## For Easier Purchasing

**BUDGET PLAN**—Enjoy your plants NOW, pay for them over FOUR, SIX OR TWELVE MONTHS! No extra charge. Make one large purchase and EARN THE QUANTITY DISCOUNT. Write for details.

**PLANT OF THE MONTH CLUB**—To honor a dear friend, the perfect company gift to a retiring executive (your own personal gift, too), to make the heart grow fonder, or just for yourself! Varied plans acceptable for LARGE or SMALL collectors, OLD or NEW growers. Details upon request.

## Conditions of Sale

**WE MAKE NO SUBSTITUTION WITHOUT YOUR PERMISSION**, unless given instructions to do so on your original order. (Note, The CATALOG BONUS SPECIAL on page 9 is the exception to this policy.)

**PLANTS SUBJECT TO PRIOR SALE.**

**PRICES SUBJECT TO CHANGE.**

**TEN DOLLAR DELIVERIES FREE WITHIN TWENTY-FIVE MILES. OTHER SHIPMENTS F.O.B. SOUTH SAN FRANCISCO.**

**CALIFORNIA DELIVERIES SUBJECT TO 3% State Sales Tax.**

**CREDIT??** Gladly. Send us your telephone number, two business references (your bank will do for one), the name and address of your employer or business.

## Quantity Discounts for Plants

\$ 50.00 - \$ 100.00	10%
\$ 100.00 - \$ 500.00	20%
\$ 500.00 - \$1000.00	30%
\$1000.00 or over	40%

These discounts are the ONLY discounts given, whether to COMMERCIAL or AMATEUR growers. We have found this system to be the fairest, since it automatically determines just who is eligible for discount.

Special QUANTITY DISCOUNTS are available on material other than plants. Write for details.

## Special Services

**COLORED SLIDES AVAILABLE:** Prepared notes to go with these, to make an interesting program for garden groups, clubs, etc. Write for details.

**FLASKS SOWN:** Complete information available upon request. Only \$6.00 per flask. It's interesting, even if you don't want to grow them on to flowering size. You supply the seed, we will take care of the rest.

**PLANT BOARDING SERVICE:** If you are within driving distance, we will repot your plants. Reasonable fees include material, labor, everything. Allowance made for your supplying the pot.

**ORCHID PUBLICATIONS AND SOCIETIES:** We will accept applications for memberships to the American Orchid Society, and the California Orchid Society. Back and current issues of their respective publications, The American Orchid Society Bulletin, and The Orchid Digest are also available.

# YOU HAVE A PLACE TO GROW ORCHIDS

RIGHT IN YOUR OWN HOME!

Your own spot might be in the kitchen over the sink, or in the living room or den before a bright window . . . anywhere about your home where night temperatures do not go, roughly, below 60° F.

Disregarding the stories you have been hearing for years about the delicacy of orchids, recent experiments have proved that they are far hardier than most house plants, and certainly a lot more fun to grow.

We give below a few simple directions for each genus, or family, listed in our catalog. Should you want more detailed directions, write for our free folder, or purchase one of the excellent recent books on orchids you will find listed on page 21 of this catalog.

## Cattleyas

### The Most Popular, and Easiest-to-Grow Orchids

As you will note from the photograph at the bottom of this page, it takes about seven years to produce flowering size plants from seed. For the novice grower, we suggest starting with several MATURE PLANTS PURCHASED IN SEASON AND IN BUD so you will not have so long to wait for your first flowers. All our plants so advertised are sent already potted, in bud, and ready to flower when ordered in season.

**Light:** Certainly the most important factor in good culture for a home collection. Place the plants in a bright window, where plant will get DIRECT sun, preferably both morning and afternoon, with protection only from hot, burning sun; otherwise, no curtains, blinds or draperies.

**Temperature:** About 60° at night, 72° or higher with sun heat during the day. Occasional deviations will not harm the plants, as all orchids will stand for a few hours temperatures as low as 40°. It is prolonged low temperature that does the damage.

**Humidity:** In the GROWING area, set the plants on a tray filled with pebbles (any pebbles will do) and water. Make sure the growing area is FREE FROM FORCED DRAFTS, since moving air is drying. Make sure, too, that there is a LITTLE SPACE between the bottom of the pot and the water level, to permit air to circulate and pick up moisture from the wet pebbles. See illustration on the next page.

**Watering:** Pour two cups or more onto the top of the osmunda every FIVE to SEVEN days, depending upon the weather. During cool, wet weather, you will need to water less frequently. During hot, dry weather you

STAGES OF CATTLEYA—from Flasks through Flowering Plants

will need to water more frequently. Most of the water will run through the potting material (osmunda or the newer fir bark mixes). In any case DO NOT OVERWATER.

**Flowering:** Most Cattleyas flower once a year at about the same time each year. Each growth or stem flowers but once. The new flowers for the next year will come from new growths. DISPLAY BLOOMING PLANTS ANYWHERE about the house, in any way you like. NO NEED FOR THE HUMIDITY TRAY, just so they are out of drafts.

## *Cypripediums*

**Light:** Need a bit less light than Cattleyas. Window sill growers often compensate for this by placing them behind the Cattleyas.

**Temperature:** Mottled leaf Cypripediums need the same temperature as do Cattleyas. Plain leaf types require 5° less temperature.

**Humidity:** Same arrangement as for Cattleyas.

**Watering:** Need CONSTANT moisture about the roots. Water frequently, keep wet. These will thrive with the pot plunged halfway down into the pebbles.

**Flowering:** Each growth will flower as it comes into maturity, seldom a set season, but heavy winter bloomers.

## *Odontoglossums*

**Light:** About the same light as for Cattleyas.

**Temperature:** A cool-growing plant, needing 72° or so daytimes, with a drop to 50° or 55° at night. NOT RECOMMENDED where climate includes prolonged high heat at night.

**Humidity:** Same arrangement as for Cattleyas.

**Watering:** Water same as for Cattleyas, except during semi-dormant season, just after flowering until new growth appears, when watering should be decreased slightly.

**Flowering:** Flowers once a year about the same time each year.

## *Cymbidiums*

**Light:** Filtered sunlight.

**Temperature:** Same as for Odontoglossums. Grows best in cool glasshouse but may be grown outdoors in climates where killing frosts do not occur.

**Humidity:** Natural humidity is usually sufficient.

**Watering:** Keep moist, but not dripping wet, at all times.

**Flowering:** Flowers early January through late Spring. A few very early varieties, such as our Cymbidium Redwood (see page 19 for prices and descriptions), flower just at or before Christmas. These plants may be displayed indoors when in bloom, at which time they stand heat best.

## *Vandas*

**Light:** Need more light than most orchids. Some varieties grown in full outdoor sunlight in Hawaii.

**Temperature:** Strictly a warm-growing variety, ideal minimum at night is 65° plus. Not recommended for in-the-home collections, although a fair degree of success has been attained by some home growers. These plants do best in glasshouses.

**Humidity:** Same arrangements as for Cattleyas. Vandas need even more humidity.

**Watering:** Should be always moist. Water frequently.

**Flowering:** Long lasting sprays appear, sometimes six times a year.

## *Phalaenopsis*

**Light:** Need a little less light than Cattleyas.

**Temperature:** Another warm variety. Ideal for minimum at night of 65° plus. Although some success has been attained by home orchid growers, these plants are generally considered a bit trickier than are Cattleyas in the home.

**Humidity:** Same arrangement as for Cattleyas.

**Watering:** Should have fairly constant moisture at the roots, but do not keep potting mix dripping wet.

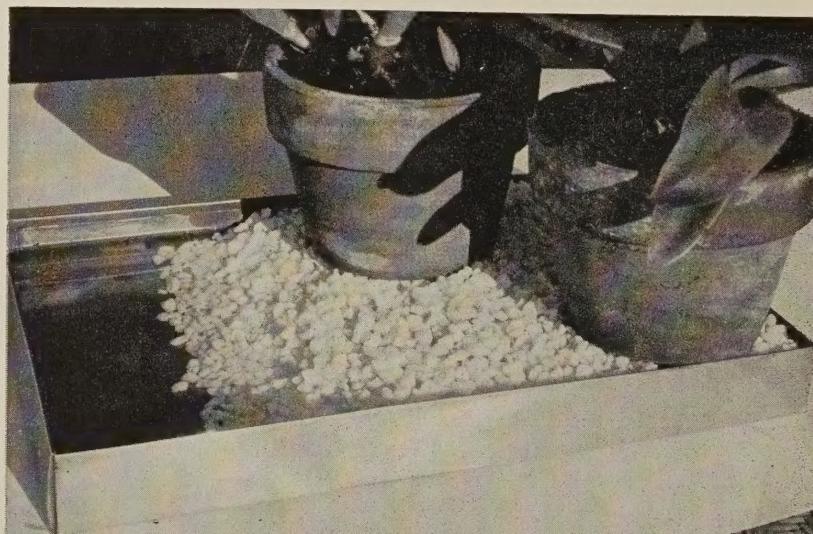

**Flowering:** Long lasting spikes, flower usually twice a year.

## *Generally Speaking*

Orchids need little attention, other than watering, and an occasional clean up for the leaves. Use a soft damp cloth moistened with a little water. Orchids are very pest-free, and a small home collection will seldom need sprays of any sort.

All genera of orchids should be repotted once every two years. Until recently most were potted in osmunda, a dried tree fern root. This must be packed into the pot very firmly, using a pressure of roughly 60 pounds on the potting stick. Within the last year or so, however, a new medium has been introduced on the market. It is a shredded fir bark with nutrients added, and greatly simplifies potting, for it may be used just as any ordinary potting mixture, no more tedious packing of the osmunda, or even tamping, for watering takes care of that. Our product we have given the trade name of WONDERBARK, and you will find it pictured and priced on page 23 of the catalog. Write for full directions as to its use.

### PROPER USE OF THE HUMIDITY TRAY

# SPECIES

Plant Name and Description	Size	Price	Plant Name and Description	Size	Price
<b>C. BOWRINGIANA</b> —Five to twenty flowers per spike, small rose-purple petals and sepals, with a darker lip—Fall.	5"	\$ 5.00 - \$ 7.50	<b>C. MOSSIAE</b> —“The Easter Orchid”, light to medium lavender—Spring.	5"	\$ 6.00 - \$10.00

	6"	10.00 - 15.00			

**C. LABIATA**—Home grown for four years

**C. LODDIGESII V. HARRISONIAE**—Excellent for the home

# FLOWERING SIZE CATTLEYAS

SHIPPED IN BUD when ordered in season, as are all our plants. Mature flowering size plants with proven flowering records, shipped in pots, ready to grow "as is".

Our prices are based first, on the SIZE and QUALITY of blooms, number of leads secondly, and to some extent the size of the pot. Various combinations of these factors result in price RANGES for the same pot size, as you will note below.

When two prices are shown opposite a pot size, intermediate prices are available. IT WILL SAVE TIME IN FILLING YOUR ORDERS IF YOU WILL STATE THE RANGE OF PRICES ACCEPTABLE FOR ANY VARIETY SELECTED, AND WHETHER OR NOT WE MAY SUBSTITUTE.

## All Lavender Flowers

Name	Parentage and Description	Size	Price
C. ACOLITA (C. Trimos x C. Tityus)	—Medium lavender petals and sepals, good dark labellum with yellow eyes in throat—Early Spring.	5" 6"	\$ 7.50 - \$12.50 10.00 - 15.00
C. ASHLANDS (C. Dupreana x C. Tityus)	—Richly colored flowers of good size—variable.	5" 6"	7.50 - 15.00 10.00 - 20.00
C. BELGICA (C. Enid x C. Remy Cholet)	—Medium lavender with a dark magenta labellum—Winter.	5" 6"	7.50 - 10.00 10.00 - 15.00
LC. CASSIOPEIA (Lc. Barbarossa x C. General Pulteney)	—Medium lavender with a dark labellum—Spring.	5" 6"	7.50 - 12.50 10.00 - 15.00

## C. WINNEWASSA

Name	Parentage and Description	Size	Price
C. DANIEL RYERSON (C. Woltho x C. Remy Cholet)	—Beautiful veined gold labellum, light lavender petals and sepals—Winter.	5" 6"	\$ 7.50 - \$15.00 10.00 - 30.00
LC. DEMO (Lc. Fascinator-Mossiae x C. Dupreana)	—Free flowering lavender, good cut flower variety—Spring and early Summer.	5" 6"	7.50 - 10.00 10.00 - 15.00
LC. DEMOPHON (C. Prospector x Lc. Fascinator-Mossiae)	—Light lavender sepals and petals, darker mottled labellum—Spring.	5" 6"	6.00 - 10.00 10.00 - 15.00
C. DUPREANA (C. Warneri x C. Warszewiczii)	—Generally a rosy lavender with dark labellum—Summer.	5" 6"	7.50 - 10.00 10.00 - 15.00
LC. EDWARD MATHEWS (Lc. Aphrodite x C. Hardyana)	—Light lavender petals and sepals—Summer.	5"	6.00 - 10.00
(LC. FASCINATOR-MOSSIAE X C. WOLTERSIANA)	—Varies from light to medium lavender, contrasting darker mottled labellum—Spring.	5" 6"	6.00 - 10.00 7.50 - 15.00
LC. FRANCIS COHN (C. Enid x C. Monarch)	—Medium lavender to dark lavender, good size and plant growth—December.	5" 6"	12.50 - 25.00 15.00 - 35.00
C. HOPOCAN (C. General Pulteney x C. Hiverinalis)	—Medium lavender petals and sepals, round shaped flower—Winter.	5" 6"	7.50 - 12.50 10.00 - 15.00
C. HOSHANG (C. Trianae x C. intertexta)	—Medium lavender flowers, dark labellum, usually good shape—Winter.	5" 6"	7.50 - 15.00 10.00 - 20.00
BC. KATZIMO (Bc. Digbyano-Mossiae x C. General Pulteney)	—Rose-lavender with creamy throat in a beautifully fringed labellum—Winter.	5" 6"	10.00 - 15.00 12.50 - 35.00
BC. LOUIS DORP (Bc. Princess Patricia x C. Mossiae)	—Medium lavender, large flower with a large labellum—Winter.	5" 6"	7.50 - 15.00 15.00 - 25.00

<b>C. THULE</b> (C. Dupreana x C. Trimos)— Medium lavender with a darker, contrasting labellum—Spring.		5"	6.00 - 10.00				
		6"	10.00 - 12.50				
<b>LC. TOCCATELLA</b> (Lc. Fascinator-Mossiae x C. Serenity)—Medium lavender petals, contrasting darker labellum with cream yellow throat—Spring.		5"	7.50 - 15.00				

# FLOWERING SIZE CATTLEYAS

Name	Parentage and Description	Size	Price	Name	Parentage and Description	Size	Price
C. ELEANORE ALBA	(C. Hardyana alba x C. gigas)—Good white, with a beautiful solid lavender throat—Summer.	5"	\$15.00 - \$25.00	C. COWANIAE ALBA	—White petals and sepals, with an orange throat—Spring.	5"	\$15.00 - \$30.00
C. ENID ALBA	(C. Mossiae alba x C. gigas) — Strong growing white Cattleya with colored, C. Mossiae labellum—Fall and Winter.	5"	10.00 - 15.00	C. ELIZABETH ANN THEDFORD	(C. Bobby Jewell x C. Rita Sladden)—A vigorous growing plant, with pure white petals and sepals, and a touch of yellow in the throat—late Fall.	5"	15.00 - 30.00
C. ESTELLE ALBA	(C. Cowaniae x C. Edithiae)—White petals and sepals with nicely colored labellum	5"	10.00 - 25.00	C. DORENE	(C. Irene v. Rivermont x C. Douai)—White petals and sepals with a yellow throat—Spring.	5"	12.50 - 15.00
C. KITTIWAKE	(C. Luegeae alba x C. Brussels alba)—Well shaped, with pure white sepals and petals. Labellum is a rich lavender, with a lovely yellow area in the throat—Fall.	5"	25.00 - 35.00	C. EMPRESS BELLE	(C. Belle Jones alba x C. White Empress)—White petals and sepals, with a nicely marked yellow throat—Winter and Spring	5"	15.00 - 25.00
LC. MARY MARTIN	(C. Hardyana alba x Lc. Jane Dane)—White petals and sepals with solid bright labellum—Summer and Fall.	5"	15.00 - 25.00	C. ESTELLE ALBA	(C. Cowaniae x C. Edithiae)—Paper white petals and sepals, contrasted with a bright orange-yellow throat—Winter.	5"	15.00 - 25.00
C. MAUREEN ORCUTT	(C. Lady Alexander alba x C. Royal Harold alba)—Paper white sepals and petals with a very brilliant lip—Fall.	5"	20.00 - 30.00	C. ETHEL BISHOP	(C. S. E. Endicott x C. Barbara Dane)—Pure white flowers, with an orange throat—Winter.	5"	10.00 - 20.00
C. ORATANI	(C. Enid alba x C. Princess Royal alba)—White, with a colored lip, very floriferous—Fall and Winter.	5"	20.00 - 30.00	C. HELEN DURFEE	(C. Clementine Goldfarb x C. Ben Nevis)—Pure white flower with an orange throat—late Fall.	6"	15.00 - 35.00
LC. PARIZADE	(C. Luegeae alba x Lc. Hassallii alba)—Usually a large size white, with colored labellum—Winter.	5"	10.00 - 20.00	C. HENRIETTA JAPHET	(C. Loddigesii, Stan v. x C. Eucharis)—Small to medium pure white flowers of good substance. Some on a tall stem—Winter.	6"	15.00 - 35.00
LC. PROCA ALBA	(Lc. Fascinator-Mossiae alba x C. Ardmore)—White sepals and petals with a mauve labellum—Winter.	5"	10.00 - 20.00	C. JAVOTTE	(C. Edithiae x C. Lady Veitch) —Pure white flowers of good substance, some orange markings in the throat—Winter.	5"	10.00 - 20.00
LC. WHITECREST	(Lc. Britannia x C. Priscilla)—White petals and sepals with a mottled lavender labellum.	5"	7.50 - 15.00	C. NEAL KYLE	(C. Edithiae x C. Minne-haha)—Round shaped, white petals and sepals with yellow in the throat—Winter and Spring.	5"	15.00 - 25.00
C. BARBARA BILLINGSLEY	(C. Joan Manda x C. Trianae)—Pure white petals and sepals, good size flowers with nice shape and texture—Winter to Spring.	5"	20.00 - 35.00	C. ROSE ANDRADE	(C. Edithiae v. White Empress x C. Bebe White)—White petals and sepals with yellow throat—Winter.	5"	7.50 - 12.50
C. CLEMENTINE GOLDFARB	(C. Cybele alba x C. Snowdon)—A fine productive white, strong growing—Winter.	5"	20.00 - 30.00	C. WALDEN'S RIDGE	(C. Snow White x C. December Snow) — Prolific white, medium in size, with Mossiae-Wagnerii type labellum—Spring.	5"	10.00 - 20.00
						6"	12.00 - 25.00

## All White Flowers

C. BARBARA BILLINGSLEY	(C. Joan Manda x C. Trianae)—Pure white petals and sepals, good size flowers with nice shape and texture—Winter to Spring.	5"	20.00 - 35.00
C. CLEMENTINE GOLDFARB	(C. Cybele alba x C. Snowdon)—A fine productive white, strong growing—Winter.	5"	20.00 - 30.00

# ONE PLANT FREE

FOR EVERY TWO YOU PURCHASE FROM THIS PAGE

For every two plants ordered from the listing below, we will send another hybrid Cattleya of equal value to those you purchase, which we will select from our ranges. Since the supply of plants is strictly limited for each listing, we **RESERVE** the **RIGHT** of **SUBSTITUTION**. In any event, it would be wise to send us several alternate choices. In case we must substitute, we **GUARANTEE** to send a plant of equal or BETTER quality than your original selection, chosen from the list below.

These plants are all first quality, hybrid Cattleyas, which will make better-than-average additions to any collection. We are repeating this offer again this year at the request of many of our customers who took advantage of it last year. Again, it is being made because the limited quantity of each cross (less than five) makes the listing too expensive to carry on our inventory from year to year.

## REGULAR QUANTITY DISCOUNTS DO NOT APPLY

**Pot Sizes:** Five, six and seven inch pots.

**Price Range:** Indicates quality and size.

# UNUSUAL ORCHIDS

One or more of these plants is a "must" for those of you who like something different. For years we have been gathering this fine collection of unique orchids from the far corners of the globe, until at present there are some 20 countries represented in our glasshouses.

Those plants we are offering on the next two pages are completely established, having been in our ranges for one, two or three years from the time they were gathered in the far countries from which they originally came. When purchased in season, they are shipped in bud, and in or out of season, are already potted, ready for you to grow with a minimum of effort.

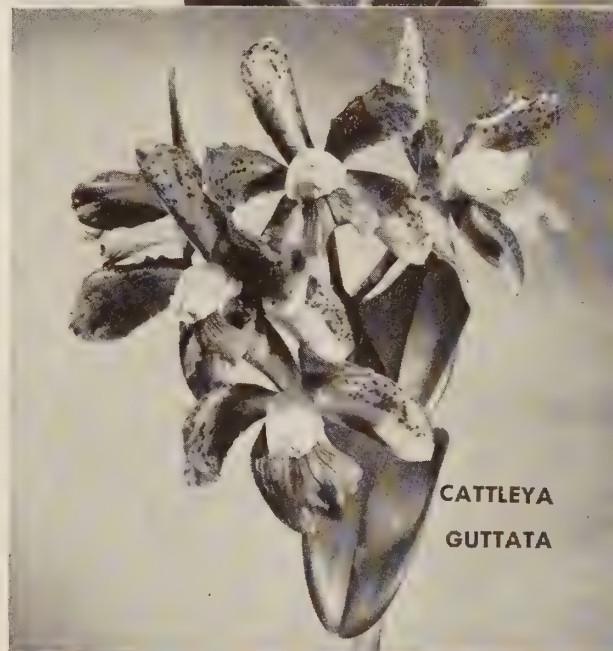

Plant Name and Description	Size	Price
<b>BRASSAVOLA NODOSA</b> —(Lady of the Night) Interesting flowers of white with a green cast. Very fragrant after nightfall—Autumn.	5"	\$ 6.00 - \$10.00
<b>BRASSIA CAUDATA</b> —The long, narrow sepals in contrast to short petals. Yellowish green, with dark brown and red-brown markings—Summer.	4"	7.50 - 10.00
<b>BRASSIA GIREOUDIANA</b> —Sepals and petals yellow, tinted with green, brown spotted—Summer.	5"	7.50 - 10.00
<b>BRASSIA MACULATA</b> —Long narrow sepals, short petals, yellowish green, spotted with brown. Creamy lip, spotted with purple and brown—early Summer.	5"	7.50 - 10.00
<b>BROUGHTONIA SANGUINEA</b> —Reddish-purple sepals and petals—Fall and various.	5"	7.50 - 10.00
<b>C. GRANULOSA</b> —Beautiful olive green sepals and petals with brown spots. Spread lip of creamy white densely spotted and marked with crimson—late Summer.	5"	7.50 - 12.00
<b>C. GUTTATA</b> —Beautiful chartreuse green sepals and petals with markings of clear maroon red. See photograph.	5"	7.50 - 12.50
<b>CYCNOCHES CHLOROCHLILON</b> —(The Swan Orchid) Delicate, golden green, with white centers. Center portions of the flowers appear as a swan; deciduous, dormant after flowering—Fall and Winter.	5"	7.50 - 12.50
<b>EPIDENDRUM ATROPURPUREUM</b> —Handsome flowers with green petals and sepals marked with rich brown. Lip white with crimson—early Summer.	5"	7.50 - 10.00
<b>EPIDENDRUM CILIARE</b> —Sepals and petals greenish white with a fringed labellum—Winter.	5"	6.00 - 10.00
<b>EPIDENDRUM CINNABARINUM</b> — Scarlet flowers, with an orange-yellow lip—Summer.	5"	6.00 - 10.00
<b>EPIDENDRUM COCHLEATUM</b> —Yellowish green, very narrow sepals and petals, with a blackish purple lip—various.	5"	6.00 - 7.50
<b>EPIDENDRUM MARIE AMES</b> —Large white labellum, with narrow greenish white petals and sepals—Spring and Summer.	5"	6.00 - 10.00
<b>EPIDENDRUM NEMORALE</b> —Delicate rose mauve flowers borne on graceful sprays. See photograph—Summer.	5"	6.00 - 10.00
<b>EPIDENDRUM PRISMATOCARPUM</b> —Sepals and petals creamy yellow, stained with purple, labellum rose, with yellow margin, long lasting flowers—Summer.	5"	6.00 - 10.00
<b>EPIDENDRUM STAMFORDIANUM</b> —Floriferous yellow flowers, with fimbriated labellum, fragrant—Spring.	5"	7.50 - 12.50
<b>EPIDENDRUM VITELLINUM</b> —Cinnabar red, with yellow labellum borne on sprays—Autumn.	5"	6.00 - 10.00
<b>LAEGLIA ALBIDA</b> —Medium sized flower with white petals and sepals set off by a rose labellum—Winter.	5"	6.00 - 7.50

# UNUSUAL ORCHIDS

**Plant Name and Description**
**Size**      **Price**

<b>LAELIA ANCEPS</b> —Medium sized flower of light lavender, with a darker rose-purple labellum—Winter.	5"	\$ 6.00 - \$10.00
<b>LAELIA CINNABARINUM</b> —Small bright red flowers—Spring.	5"	7.50 - 10.00
<b>LAELIA FLAVA</b> —Clear yellow flowers borne on long stems. See photograph—Spring.	5"	6.00 - 10.00
<b>LAELIA GOULDIANA</b> —Deep rose purple with a touch of yellow in the labellum. See photograph—Winter.	5"	7.50 - 10.00
<b>LAELIA HARPOPHYLLA</b> —Bright orange-red. Small flowers with white appearing on the lip—late Winter and Spring.	5"	10.00 - 15.00
<b>LAELIA SPECIOSA</b> —Also known as Laelia majalis, a medium sized, lovely rose lavender flower of good substance—Spring.	5"	7.50 - 12.50
<b>LAELIA RUPESTRIS</b> —Purple violet petals and sepals, with a lighter labellum—Autumn.	5"	7.50 - 10.00
<b>LYCASTE SKINNERI</b> —Large handsome flowers. White sepals lightly suffused with rose, while the lip is usually thickly marked with rose and crimson—Winter.	5"	10.00 - 12.50
<b>MILTONIA CLOWESII</b> —Petals and sepals chestnut brown, barred and tipped with yellow. White labellum, with touch of purple—various.	5"	7.50 - 10.00
<b>ODONTOGLOSSUM CITROSMUM</b> —Large, round fragrant flowers. White sepals and petals with a rose labellum—Spring.	5"	7.50 - 10.00
<b>ODONTOGLOSSUM PULCHELLUM</b> —(Lily of the Valley Orchid). Very pretty pure white flowers with just a touch of yellow in the lip—Spring.	3"	7.50 - 10.00
<b>ONCIDIUM AMPLIATUM VAR. MAJUS</b> —Small spray flowers of yellow with mahogany and white markings.	5"	7.50 - 10.00
<b>ONCIDIUM CEBOLLETA</b> —Yellow sepals and petals spotted with red brown. Bright canary yellow labellum—Spring.	5"	7.50 - 10.00
<b>ONCIDIUM CHEIOPHORUM</b> —Small fragrant bright yellow flowers with a white labellum—Autumn. See photograph.	5"	7.50 - 10.00
<b>ONCIDIUM LANCEANUM</b> —Sepals and petals yellow, spotted with brown—Summer.	5"	7.50 - 12.50
<b>ONCIDIUM ORNITHORYNCHEM</b> —Fragrant small flowers of pink lavender, borne in sprays—Fall.	5"	6.00 - 10.00
<b>ONCIDIUM PAPILIO</b> —(The Butterfly Orchid). Sepals dark red with yellow bars, canary lip high lighted with a bright red margin—various.	5"	7.50 - 12.50
<b>ONCIDIUM SARCODES</b> —Brown sepals and petals bordered with yellow—Spring and early Summer.	5"	7.50 - 10.00
<b>ONCIDIUM SPLENDIDUM</b> —Yellow-green flowers, brown-barred with a plain yellow labellum—Winter.	5"	6.00 - 10.00
<b>ONCIDIUM VARICOSUM V. ROGERSII</b> —(The Dancing Lady Orchid). Gold flowers set off by touches of deep mahogany brown—Fall.	5"	7.50 - 12.50
<b>PHAIUS GRANDIFOLIUS</b> —Sepals and petals yellow brown with a white bordered rose purple labellum—Spring.	6"	10.00 - 12.50
<b>VANILLA PLANIFOLIA</b> —Vining foliage, bearing greenish-white flowers—Summer. All plants with totem.	4"	3.00 - 4.00
<b>ZYGOPETALUM MACKAYI</b> —Sepals and petals light yellowish green, blotched with purplish-brown. Broad white lip streaked and spotted with violet-purple—Autumn and Winter.	5"	6.00 - 12.00

# ROD McLELLAN CO. HYBRID CATTLEYAS

## All Lavender Flowers

Plant Name	Parentage and Description	Size	Price
<b>LC. ALTUS</b> (C. Tellus x Lc. Atlantis)—Large flowers with lavender petals and sepals set off by a richly colored labellum—Winter and various.		5" 6"	\$12.00 - \$25.00 12.00 - 30.00
<b>LC. ATLANTIS</b> (Lc. Coquette x C. Dinah)—Our two best Atlantis produced this cross, which is a good lavender color, with a bright fuchsia labellum. Some with yellow eyes in the throat. Good shape, texture and substance—late Fall and early Winter.		5"	10.00 - 20.00
<b>LC. ATLINAX</b> (C. Sir Pertinax x Lc. Atlantis)—Large flowers of pleasing appearance. Medium lavender sepals and petals, with a fine, dark labellum—Christmas.		5"	12.00 - 20.00
<b>C. BANDIT</b> (C. Tityus x C. Nebo)—Medium lavender sepals and petals with a fine, large rose-mauve labellum. A very productive hybrid for the Holidays—Christmas.		5" 6"	10.00 - 15.00 12.50 - 20.00
<b>BLC. BIG BEAR</b> (Blc. Momercia x C. Prospector)—A nicely shaped, good quality lavender flower. Resembles Laeliocattleya, rather than Brassocattleya—late Winter, early Spring.		5"	7.50 - 15.00
<b>LC. CLIFF HOUSE</b> (C. Enid v. gigantea x Lc. Sheba)—Some of the medium to light lavender sepals and petals are touched with darker color at the tips. The ruffled dark lips are nicely marked with yellow eyes, offering contrast for the lighter sepals and petals—variable.		5"	7.50 - 12.00
<b>LC. COIT TOWER</b> (C. Nebo x Lc. Oliver Lines)—Excellent grower, large flowers with good shape. Medium lavender, with a large, ruffled labellum, lighter margin—late Fall.		5"	10.00 - 25.00
<b>LC. COLMA</b> (Lc. Chevalier x Lc. Atlantis)—Bright light to medium rosy-lavender, ruffled fuchsia labellum. On some, a touch of the labellum color appears on petal tips—Spring and early Summer.		5" 6"	7.50 - 15.00 10.00 - 20.00
<b>LC. DARRELL WALKER</b> (C. Varuna x Lc. Carrie Goldfarb)—Medium lavender petals and sepals with a darker contrasting labellum, yellow eyes and veining in the throat—Fall and early Winter.		5" 6"	10.00 - 15.00 12.50 - 20.00
<b>C. DUPREANA</b> (C. Dupreana x C. Dupreana)—Rosy lavender petals and sepals, exceptionally dark labellum—June and July.		5" 6"	7.50 - 25.00 10.00 - 30.00
<b>C. FEATHER</b> (C. Varuna x C. Prospector)—A very productive hybrid, with medium to dark lavender sepals and petals and dark mauve labellum—Winter and various.		5" 6"	7.50 - 15.00 10.00 - 20.00
<b>LC. ELIBO</b> (C. Nebo x Lc. Elissa)—Mauve petals and sepals with a large dark labellum. Interesting green gold throat—late Fall.		5" 6"	7.50 - 25.00 10.00 - 30.00
<b>C. FORT CRONKHITE</b> (C. H. B. Turner x C. Leda splendens)—The labellum has been outstanding on all plants flowered to date. Medium to dark lavender petals and sepals, with a darker labellum—Winter.		5" 6"	7.50 - 15.00 10.00 - 20.00

C. MAMIE EISENHOWER

# THE ULTIMATE IN CAREFUL BREEDING

## All Lavender Flowers

Plant Name	Parentage and Description	Size	Price
<b>LC. FUNSTON SQUARE</b> (C. Nebo x Lc. Haidee)—Medium to dark lavender petals and sepals, combined with a dark lip. Good shape and substance make this a desirable flower—Fall and early Winter.	5" 6"	\$ 7.50 - \$15.00 10.00 - 20.00	
<b>LC. LAKE CHABOT</b> (Lc. Cabazon x C. Nebo)—Medium lavender flowers, with a large, rosy-mauve labellum that has a considerable yellow area, extending into the throat—Christmas.	5" 6"	7.50 - 15.00 10.00 - 20.00	
<b>BLC. LAKE MERCED</b> (Blc. Mrs. A. Faulkner x Bc. Irene)—Medium to light delicate lavender with a slightly darker labellum, set off by yellow eyes in the throat—Fall and Winter.	5" 6"	7.50 - 12.00 10.00 - 20.00	
<b>LC. L. F. HAWKINSON</b> (C. Hardyana Ruby x Lc. Elissa var. Piedmont)—Very large richly colored mauve petals and sepals with a superb dark purple labellum, edge ruffled, often with white margin—Summer and Fall.	5" 6"	15.00 - 50.00 20.00 - 75.00	
<b>LC. MAMIE EISENHOWER</b> (Lc. Chevalier x Lc. Britannia)—Substantial large flowers of clear medium lavender sepals and petals, with a rich purple labellum—May, various.	5" 6"	17.50 - 40.00 30.00 - 60.00	
<b>LC. MOSS BEACH</b> (C. Mossiae x Lc. Atlantis)—Strong growing plants with larger than average, medium to dark lavender flowers—Winter.	5" 6"	7.50 - 15.00 10.00 - 20.00	
<b>BC. MT. DIABLO</b> (C. Leda splendens x Bc. Hartland)—Wide variation in color from lavender flushed white with a colored labellum to rose lavender. Most produce a distinctive rosy lavender of good shape and size—Fall.	5" 6"	6.00 - 10.00 10.00 - 15.00	
<b>LC. NORTH BEACH</b> (C. Mossiae x Lc. Cuesta)—Appealing flat shape, light to medium lavender sepals and petals. Darker labellum with pale yellow throat—Fall.	5"	10.00 - 25.00	
<b>LC. PANHANDLE</b> (C. Apalachee x Lc. Trempealeau)—The deep purple labellum offers interesting contrast to the light to medium lavender sepals. Brilliant gold eyes in the throat—late Fall.	5" 6"	7.50 - 15.00 10.00 - 20.00	
<b>C. PILGRIM</b> (C. Prospector v. Helen Buss x C. Tityus)—Good producer, above average size flowers. Medium lavender petals and sepals with yellow throat—late Winter.	5" 6"	12.50 - 25.00 15.00 - 35.00	
<b>C. QUALUNA</b> (C. San Pasqual x C. Varuna)—A very much improved form of the fine species, C. gigas. Plant grows well, producing flowers of medium to dark lavender with a darker labellum—Summer.	5" 6"	7.50 - 15.00 10.00 - 20.00	
<b>C. REDWOOD</b> (C. Crepuscule x C. intertexta)—Medium to dark lavender sepals and petals. A bright, contrasting lip with gold eyes in the throat—early Spring and early Summer.	5" 6"	7.50 - 15.00 12.00 - 20.00	
<b>LC. ROZON</b> (Lc. Rosamunde x Lc. Cabazon)—Rich lavender petals and sepals with a large ruffled labellum. Generally good shape—variable, Fall.	5"	10.00 - 25.00	

# ROD McLELLAN CO. HYBRIDS

Plant Name	Parentage and Description	Size	Price
<b>BLC. SOLEDAD</b> (C. Cowaniae x Blc. Mom- erica)—Large well shaped flow- ers of rose-lavender, with a mag- enta labellum, some with golden orange in the throat—late Winter.	5" 6"	\$12.00 - \$25.00 15.00 - 30.00	
<b>C. SPRING VALLEY</b> (C. Mossiae x C. H. B. Turner)—Medium lavender petals and sepals, with a darker, con- trasting labellum—Spring.	5" 6"	10.00 - 25.00 12.00 - 30.00	
<b>C. SUNNYVALE</b> (C. Mossiae x Blc. Mom- erica)—Nicely shaped good qual- ity lavender flowers—late Winter early Spring.	5"	12.50 - 25.00	
<b>LC. TELEGRAPH HILL</b> (C. Tellus x Lc. Her- tha)—Heavy-textured medium to dark lavender sepals and petals. Vigorous grower — late Winter, early Spring.	5" 6"	12.00 - 20.00 15.00 - 30.00	
<b>LC. TREMBO</b> (C. Nebo x Lc. Trempealeau) —Medium lavender petals and sepals, with good size and shape —late Fall, Winter.	5" 6"	10.00 - 25.00 12.00 - 30.00	
<b>LC. TWIN PEAKS</b> (Lc. Dinador x C. Gen- eral Pulteney)—A novelty with a distinctive splash of dark color on the tip of the light to medium petals gives an arresting appear- ance to this hybrid. Flat ruffled edge labellum is dark lavender— Winter and Fall.	5" 6"	10.00 - 15.00 12.50 - 20.00	

## C. BANDIT

Plant Name	Parentage and Description	Size	Price
<b>LC SANCHEZ ADOBE</b> (C. Alessandro x Lc. Trempealeau)—The lavender col- or of the petals and sepals forms a wide margin for the bright purple in some. Yellow eyes in throat. Flowers 4 and 5 to a stem. This is a wonderful buy—Fall and Winter.	5" 6"	\$ 7.50 - \$15.00 12.50 - 20.00	
<b>C. SEAL ROCK</b> (C. Apalachee x C. Tityus) —Large lavender petals and sep- als. Cerise labellum with an inter- esting veined yellow throat— late Winter.	5" 6"	10.00 - 25.00 12.00 - 30.00	

## White With Colored Labellum

<b>C. VISITACION VALLEY</b> (C. Mrs. Fred- erick Knollys alba x C. Brussels) —A strong growing plant, white petals and sepals. Lip has splotch of medium lavender with white ruffled margin and white throat with lavender veining in the large yellow eyes—Spring.	5" 6"	7.50 - 20.00 10.00 - 25.00
<b>C. TANFORAN</b> (C. Priscilla alba x C. Brus- sels)—White ruffled petals and sepals with a lip that is solid bright purple in some, splotched purple in others. A touch of yel- low at the base of the throat. La- bellum shows white ruffled mar- gin—Spring.	5" 6"	7.50 - 15.00 15.00 - 35.00

## All White Flowers

<b>C. ATHERTON</b> (C. Concininity x C. Bar- bara Billingsley)—A very florifer- ous plant having pure white flow- ers with yellow or orange-yellow areas in the throat—Winter.	5" 6"	10.00 - 20.00 15.00 - 35.00
<b>C. BARBARA BILLINGSLEY</b> (C. Barbara Billingsley x C. Barbara Billings- ley)—Pure white flowers, with a touch of lemon or gold shading in the throat, well displayed flowers on tall stems—Winter.	5" 6"	7.50 - 15.00 15.00 - 30.00
<b>C. FROST</b> (C. Pavlova x C. Barbara Bill- lingsley)—A small to medium size pure white flower. Some with a touch of yellow in the throat. The Pavlova parent adds substance to this cross—Winter early Spring.	5" 6"	7.50 - 15.00 15.00 - 35.00
<b>C. MISSION DOLORES</b> (C. Angelus x C. Estelle alba)—A charming, med- ium sized flower, paper white petals and sepals, with a touch of yellow in the throat—very dainty—Winter.	5" 6"	10.00 - 25.00 20.00 - 35.00

## Unusual Flowers

<b>LC. CLAIRE SATO</b> (Lc. S. J. Bracey x C. triumphans)—A novelty Laelio- cattleya in yellow and bronze shades, with a magenta labellum —late Summer and Fall.	5"	12.50 - 15.00
<b>LC. HALLOWE'EN</b> (Lc. S. J. Bracey x Lc. Yasmin)—Wide variation in color of flower, but mostly yellow pet- als and sepals, with a magenta la- bellum—Summer and Fall.	5" 6"	12.50 - 15.00 15.00 - 35.00

# ROD McLELLAN CO. SEEDLINGS

Well established plants from outstanding parent stock. Our "four's" will flower within a year in most cases, while other sizes are well-rooted, ready, or almost ready, for transfer to the next largest pot size.

Cross No.	Name, Parentage and Description	Size	Price	Cross No.	Name, Parentage and Description	Size	Price
525—LC. PATIENT MAID (C. Enid x Lc. Nymph v. Colossus)	Pale, rosy petals and sepals with medium purple lip. Yellow eyes and purple veining in the throat—Fall.	3"	\$6.00	1906—(LC. ATLANTIS X LC. HERTHA)	Both parents have excellent substance and fine shape. Dark lavender flowers should result—Fall.	3"	\$8.00
685—C. YERBA BUENA (C. Enid v. gigantea x C. Bandit)	Petals and sepals medium lavender. Maroon lip, darker throat—late Winter.	3"	8.00	1910—SLC. WINNEU (C. Winnietha x Slc. Meuzac)	Mauve sepals and petals with a maroon labellum, yellow throat. This is a Sophro-Cattleya with substance—various.	3"	8.00
700—LC. STORYBOOK DOLL (Lc. Atlantis x C. Prospector v. Nancy Ann)	Mauve petals with white fringe, mauve sepals, and bright dark contrasting labellum, with yellow eyes in the throat—Spring.	3"	8.00	1918—(LC. SUSAN X LC. CABAZON)	Medium to dark lavender sepals and petals. These plants should produce fine large colorful labellums—Fall.	3"	8.00
704—LC. TELEGRAPH HILL (C. Tellus x Lc. Hertha)	Dark lavender sepals and petals, good substance and good shape—Winter and variable.	3"	8.00	1928—LC. SAN FRANCISCO (Lc. Elissa x Lc. Trempealeau)	Medium lavender sepals and petals. Labellum is bordered in dark lavender, with lavender striped throat. Flowers should be large—Fall.	3"	8.00
747—C. FAMOSA (C. Tityus x C. Remy Cholet v. excellence)	This Tityus imparts vigor and production. Many flower stems have five large blooms. These should have good size, shape and color—late Winter.	3"	8.00	1935—(C. TRIANAE V. A. C. BURRAGE A. M., R.H.S. X LC. HAIDEE)	A combination of fine shape and rich color. This Lc. Haidee imparts dark color and a wonderful, dark velvet labellum—Fall and Winter.	3"	8.00
860—LC. SANDRA OZELLA (C. Dowiana aurea x C. S. J. Bracey)	Remake of a proven cross producing flowers from green-yellow to deep bronze, with red lips—Fall and Winter.	3"	8.00	1943—(LC. ISOTTA X C. TETHYS, DARK BEAUTY)	This Isotta contributes excellent substance as evidenced in our Lc. Golden Gate. We plan for a dark C. Tethys with substance—Fall.	3"	8.00
864—LC. FAIRFIELD (C. Enid x Lc. Mossiana)	Lavender petals and sepals with slightly mottled lip, veined throat—variable.	3"	6.00	1944—(LC. ATLANTIS X LC. SUSAN)	We have progeny from both parents, therefore, we expect large colorful flowers with excellent substance—Fall.	3"	8.00
881—LC. GOLDEN GATE (Lc. S. J. Bracey x Lc. Isotta)	Bronze lavender petals and sepals with rich purple labellum. Excellent substance and vigor—Summer and Fall.	3"	8.00	1948—(LC. HAIDEE X LC. GRISELDA)	A strong growing plant with large colorful dark flowers—various.	3"	6.00
893—LC. JUNIPERO SERRA (Lc. Atlantis x C. Heyday)	Rosy lavender petals and sepals with rich dark purple labellum, yellow eyes in throat, excellent shape—Fall and Winter.	3"	8.00	1956—BC. BILEE (C. bicolor x Bc. Mrs. J. Leeman)	Burnt amber petals and sepals with magenta lip and throat—Fall and early Winter.	3"	6.00
937—LC. PACIFIC (Lc. Medon x Lc. Atlantis)	Petals and sepals rich dark purple with deeper labellum. Gold eyes in throat—Fall.	3"	8.00				
1008—(C. BARBARA BILLINGSLEY X C. ANN ALBERTS V. CONSTANCY)	A good, large white with a touch of yellow in the throat—Winter.	3"	8.00				
1045—(LC. MAGIC V. VELVET X C. REMY CHOLET)	Mauve sepals and petals with a dark velvet red lip is expected here—Fall and Winter.	3"	8.00				
1063—LC. ALAMEDA (C. Remy Cholet v. prestige x Lc. Mary Rose v. exquisite)	Petals and sepals light lavender with dark magenta labellum—Fall and Winter.	3"	8.00				
1089—(LC. DERRYNANE X C. REMY CHOLET)	Medium to dark lavender flowers, labellum large and colorful. Substance should be excellent—Fall and Winter.	3"	8.00				
1902—(C. AMEDEE X LC. HERTHA)	Hertha always produces shapely compact flowers with good substance and medium to dark rosy lavender flowers—Winter.	3"	6.00				

## ONE OF OUR SEEDLING HOUSES

# VANDAS

EXOTIC COLORS . . . FREE FLOWERING

Varieties listed below are strap leafed varieties which flower profusely in the glasshouse. Beautiful round flowers that offer some of the most unique colors and color combinations in the orchid family. Some plants will flower as many times as six a year, producing lovely, long lasting sprays. An authentic tropical orchid, these plants require warm temperatures, and high humidity. See cultural notes.

## Flowering Size

Plant Name and Parentage	Description	Size	Price
<b>VANDA CHIMEY WALKER</b> ( <i>V. Flammerole</i> x <i>V. Sanderiana</i> )—Delicate lavender flowers with darker lavender labellum. Pinpoints of darker lavender arranged vertically on sepals and petals—Various.		6"	\$18.00 - \$25.00
		7"	20.00 - 35.00
		8"	25.00 - 40.00
		9"	30.00 - 50.00
<b>VANDA COERULEA</b> (Species)—Beautiful pastel flowers of delicate blue. The only true blue orchid.		5"	12.50 - 25.00
<b>VANDA EISENHOWER</b> ( <i>V. Ellen Noa</i> x <i>V. Sanderiana</i> )—Buff to green, with a rose overcast. Excellent shape and size—Various		6"	20.00 - 35.00
		7"	25.00 - 40.00
		8"	30.00 - 50.00
<b>VANDA MANILA</b> ( <i>V. Iuzonica</i> x <i>V. Sanderiana</i> )—Petals and sepals suffused in varying degrees with pink-lavender. Reddish purple pinpoints of color arranged vertically on sepals and petals. Bright, reddish-purple labellum—Various.		6"	15.00 - 20.00
		7"	18.00 - 25.00
		8"	21.50 - 35.00
		9"	25.00 - 40.00
<b>VANDA MERLE KAWAMOTO</b> ( <i>V. Charlana</i> x <i>V. Sanderiana</i> )—Pink flowers with lavender pink pinpoints and veins of darker color arranged vertically on sepals and petals. Pinkish-green labellum—Various.		6"	18.00 - 25.00
		7"	20.00 - 35.00
		8"	25.00 - 40.00
		9"	30.00 - 50.00
<b>VANDA ROTHSCHILDIANA</b> ( <i>V. coerulea</i> x <i>V. Sanderiana</i> )—Blue flowers suffused with white. Darker blue, contrasting veining. Dark blue labellum—Various.		6"	18.00 - 25.00
<b>VANDA WAIKIKI</b> ( <i>V. Boschii</i> x <i>V. Sanderiana</i> )—Fine shape. A combination of pink and red with yellow to brown background—Various.		6"	18.00 - 25.00
		7"	20.00 - 35.00
		8"	25.00 - 40.00

## Seedlings

These plants are near to flowering, are well established plants, and good growers. We suggest shipping them out of pot to reduce weight and save in transportation.

Plant Name and Parentage	Description	Size	Price
( <i>V. Sam Sherman</i> x <i>V. Admiral Radford</i> )	4" \$10.00 5" 12.00		
—Speculative color, large flat flowers that are free blooming.			
( <i>V. Memoria T. Iwasaki</i> x <i>V. Dennisoniana</i> )	4" 10.00 5" 12.00		
—Colors should be yellow or green.			
( <i>V. Julia Sideris</i> var. <i>Purpurea</i> x <i>V. Merrillii</i> var. <i>Red Devil</i> )	4" 6.00 5" 8.00		
—Good color flowers of average size.			
( <i>V. Tatzeri</i> x <i>V. Manila</i> var. <i>Sumner</i> )	4" 10.00 5" 12.00		
—Should resemble Manila, but with increased color.			

Plant Name and Parentage	Description	Size	Price
<b>V. BETTY WONG</b> ( <i>V. Julia Sideris</i> v. <i>Dodecatheon</i> x <i>V. Clara Shipman Fisher</i> var. <i>Rolph's</i> )—A great range of color, with yellow and very dark spotting predominating.		4"	\$ 6.00
		5"	8.00
<b>(<i>V. Burgeffii</i> x <i>V. Manila</i> var. <i>Sumner</i>)</b> —Large, dark pink, flat flowers, free flowering.		4"	10.00
		5"	12.00
<b>(<i>V. Ellen Noa</i> x <i>V. Mary Foster</i>)</b> —Large flat flowers with a range of bright colors from yellow to red.		4"	8.00
		5"	12.50
<b>V. RADFISH</b> ( <i>V. Admiral Radford</i> x <i>V. Clara Shipman Fisher</i> var. <i>Anderson</i> )—Large, flat flowers, deep brown and reds should predominate.		4"	8.00
		5"	10.00
<b>(<i>V. Burgeffii</i> x <i>V. Clara Shipman Fisher</i> ANDERSON)</b> —A pink and yellow parent, should show Sanderiana influence.		4"	8.00
		5"	10.00

**PHALAENOPSIS CHIEFTAIN**—Note the superb flower form produced by this, one of our better crosses

## PHALAENOPSIS

Our Phalaenopsis hybrids consistently win blue ribbons wherever they are exhibited. Flowers are borne in sprays, and have an exceptionally delicate and graceful appearance. Originally recommended for conservatories and glasshouse growers only, since the plants require higher heat and humidity. However, many of our customers are having encouraging success growing Phalaenopsis in their homes, even blooming them two to three times a year!

Plant Name	Parentage and Description	Size	Price
<b>PHAL. BOBBY BOY (Doris x Rimestadiana v. Helveta)</b>	Petals and sepals white, touched faintly with pink. Yellow and maroon in the lip—various.	4"	\$ 5.00 - \$15.00
		5"	7.50 - 20.00

**PHAL. CHIEFTAIN (Doris x La Canada)**—Our best cross outstanding in all characteristics, white petals and sepals, with distinctively marked labellum—various.

ANTHURIUM SCHERZERIANUM

# ANTHURIUMS

Although not of the orchid family, the Anthurium does well under similar conditions, and will provide a background of foliage for your orchid collection.

The Anthuriums, with proper care, will be in flower almost constantly, a new bloom appearing almost as soon as the old one fades. The plants need filtered sunlight, and a generally bright location. Grown too dark, the plants tend to become "leggy" and sprawling. Keep damp but not dripping wet. May be fed once a month. The **Scandens** does not bear flowers, but interesting grape like clusters of white seeds.

ANTHURIUM ANDREANUM

## Flowering Size Plants

**ANTHURIUM ANDREANUM**—Palest pink, grading through brightest red.

# CYMBIDIUMS

## GARDEN TYPES AND OTHERS

Delightful ice cream pastel flowers borne on sprays, as many as 20 or so flowers to a spray. An increasingly popular semi-terrestrial, vigorous and easily grown in your glass house, or even outdoors in a climate like that of the Bay Area. As many as twenty flowers per spike and some of the larger plants have as many as three spikes. On the plants the flowers will last as long as six weeks to two months. This is a cool growing plant and needs special cultural facilities. Blooms from Christmas through Mother's Day, especially abundant around Easter. See cultural notes.

**OUR CYMBIDIUM HOUSE JUST AFTER CHRISTMAS**—These plants were bred for early flowering

Plant Name	Parentage and Description	Size	Price
CYM. ALEXANDERI (eburneo-Lowianum x insigne)	Pinkish white to cream white sepals and petals. Labellum white, with pink to maroon spots	6" 7"	\$10.00 - \$30.00 15.00 - 40.00
CYM. BEATRICE SUPERBA (Parents unknown)	Large greenish brown flowers with outstanding red banded labellum. One of the easiest Cymbidiums to flower	6" 7"	15.00 - 30.00 20.00 - 40.00
CYM. DORIS (insigne x Tracyanum)	Flowers brown to greenish-brown Winter.	6" 7"	7.50 - 15.00 10.00 - 20.00
CYM. ERICA SANDER (grandiflorum x Pauwelsii)	Beautiful apple green sepals and petals, brownish maroon spots on cream white labellum	6" 7"	15.00 - 30.00 20.00 - 40.00
CYM. INSIGNE (hybrids)	Delicate pink flower	6"	7.50 - 15.00
CYM. LOWIANUM (Selected Species)	Olive green petals and sepals, red crested labellum, easy to grow and flower	6" 7"	7.50 - 15.00 10.00 - 20.00

Plant Name	Parentage and Description	Size	Price
CYM. MADELEINE (insigne x Pauwelsii)	Light pink or beige flowers with attractive lip	6" 7"	\$ 7.50 - \$15.00 10.00 - 20.00
CYM. PAUWELSI (insigne x Lowianum)	Cream to tan sepals and petals, labellum spotted brown to maroon, tall flower stems	6" 7"	7.50 - 15.00 10.00 - 20.00
CYM. REDWOOD (erythrostylum x Chesham)	For all collectors, a "must"! Earliest flowering type, some fully open by Christmas. Light to dark pinks, some cream and beige shades. Labellums maroon spotted or banded.	6" 7"	10.00 - 25.00 15.00 - 40.00
CYM. RUSPER (Pearl x Veronique)	Large yellow-brown to greenish brown flowers with lovely light red banded labellum. Flowers readily with many flowers per stem.	6"	15.00 - 30.00
CYM. TRACYANUM (hybrids)	Flowers brown-green	6" 7"	7.50 - 15.00 10.00 - 20.00
CYM. ZEBRA (Dryad x insigne)	Light pink flowers on tall graceful stems	6"	7.50 - 15.00

# CYPRIPEDIUMS

## THE "LADY SLIPPER" ORCHID

So called, because the flower form resembles in part that of a lady's slipper. Amazingly long lasting flowers remain in full perfection for about six weeks on the plant. Flowering season is variable, peaking in the Winter. See cultural notes on page 4.

Plant Name and Description	Size	Price
<b>CYP. ALBION</b> ( <i>Astarte x niveum</i> )—Pure white, with a very fine green marking in the column.	4"	\$25.00 - \$40.00
<b>CYP. BELLATULUM</b> (Species)—White petals and sepals with pin dots of maroon. Borne on short stems.	4" 5"	5.00 - 7.50 6.00 - 10.00
<b>CYP. CALLOSUM</b> (Species)—Dorsal sepal white, shaded to green at base and striped with dark crimson. Petals pale green and pouch brown-purple.	4" 5"	6.00 - 12.00 7.50 - 15.00
<b>CYP. CONCOLOR</b> (Species)—Flowers light yellow, speckled with small deep red dots.	3"	4.00
<b>CYP. CORSAIR, HOLFORD'S VAR.</b> ( <i>Niobe x nitens</i> )—Excellent production. Pleasing light brown flower having overlay of purple and white.	4" 5"	12.50 - 20.00 15.00 - 30.00
<b>CYP. HARRISIANUM</b> ( <i>barbatum x villosum</i> )—Entire flower is dark Indian red with a touch of green, white and purple shadings.	4" 5"	7.50 - 15.00 15.00 - 25.00
<b>CYP. INSIGNE V. HAREFIELD HALL</b> —Larger flowers than the Insigne species. Similarly colored dorsal sepal with much larger chocolate brown spots.	4" 5"	10.00 - 15.00 12.50 - 20.00
<b>CYP. INSIGNE V. SANDERAE</b> —Entirely yellow-green, except for the white border on the dorsal.	4" 5"	7.50 - 15.00 10.00 - 20.00
<b>CYP. KING ARTHUR V. BURGOYNE</b> ( <i>bingleyense x Monsieur de Curte</i> )—Russet brown petals and pouch. Ventral sepal green, dorsal has white margin, shading through rose to the russet of the pouch at the base.	4" 5"	15.00 - 25.00 20.00 - 30.00
<b>CYP. LEEANUM</b> ( <i>insigne x Spicerianum</i> )—Petals and pouch are brownish-yellow. Dorsal yellow green, speckled with purple toward the tip. Productive, with long lasting flowers.	4"	7.50 - 12.00
<b>CYP. MACAW</b> ( <i>Jura x Swallow</i> )—Large size, pouch and petals green, very heavily marked in sorghum brown. The dorsal is light green at base, changing to white and marked with perilla purple dots.	4" 5"	15.00 - 20.00 20.00 - 35.00

**CYPRIPEDIUM COSAIR**—Holford's Variety

Plant Name and Description	Size	Price
<b>CYP. MARTIN</b> ( <i>Bourton Lady x Swallow</i> )—Especially attractive because of raised large dark spots on the green and white dorsal sepal and petals. Pouch is contrasting solid russet.	4" 5"	\$15.00 - \$20.00 20.00 - 35.00
<b>CYP. MAUDIAE</b> ( <i>callosum Sanderae x Lawrenceanum, Hyeanum</i> )—Universal favorite because of its lovely mottled green foliage and fine green and white long-stemmed flowers.	3" 4"	7.50 - 12.00 10.00 - 30.00
<b>CYP. RUFF</b> ( <i>Burton Lady x Garibaldi</i> )—Dorsal spotted on a green-brown background. Pouch mahogany.	4" 5" 6"	10.00 - 20.00 12.00 - 25.00 15.00 - 30.00
<b>CYP. ST. ALBAN</b> ( <i>Antigone x Harrisianum</i> )—Exciting medium sized flower with deep mahogany red pouch and petals. Dorsal sepal has mahogany red sunrise shading to white at sides and up.	4" 5"	5.00 - 10.00 7.50 - 15.00
<b>CYP. TROILCAR</b> ( <i>Hancar x Troilus</i> )—Spotted or striped or plain dorsal with wide white marginal shading to yellow green at base. Greenish pouch and petals suffused with rosy cast.	4" 5"	10.00 - 20.00 15.00 - 25.00
<b>CYP. VENUSTUM</b> (Species)—Brownish-gold pouch with green marbling. Dorsal white with vertical green stripes. Ventral brown gold, shading to green at base.	4" 5"	6.00 - 10.00 7.50 - 15.00

Above and below

**AN AERIAL VIEW**

## *A Little About* **"ACRES OF ORCHIDS"**

ROD McLELLAN CO. has become an institution with the people of the Bay Area; a place to bring their out-of-town guests, meet their friends, or just enjoy the beauty that is available to them any day in the week.

One of the largest and most varied collection of orchids in the world is housed in ranges covering one-third of the total 63 acres of land devoted exclusively to flowers. A world-wide trip takes just minutes along the extensive orchid ranges and lath houses. From Thailand, Brazil, Madagascar, Australia . . . 40 countries in all . . . more than 200 different species have been painstakingly gathered to form this magnificent collection, for you to see, to enjoy, and from which you may make your selections.

In addition, you will find carnations, roses, gardenias, chrysanthemums and anthurium in row upon row of glasshouses. Outdoors, flourishing in the famous California sun are acres of field crops. Among these, heather is the "specialty of the house". These plantings are almost unique in the world, for in almost no other area does this crop, which needs year around cool moist sea air, do so well. Rod McLellan has also developed a startling different strain of eucalyptus, a true spiral hybrid that is much in demand throughout the country for use as decorative greens, either with or without flowers. The spicy fresh fragrance of this plant is as distinctive as its beautiful silvery blue foliage.

There is a history to the McLellan name now so well known in flowers in America that may add to the enjoyment of your purchases from this unique "Acres of Orchids" wonderland. For California is indebted to the McLellans for much of the founding and development of the flower industry. And today, California is the nation's leading producer of flowers.

An astute Scotsman, Rod McLellan's forbear fashioned bouquets with the surplus flowers from the gardens he chose as an off-hour escape from his successful-but-prosaic dairy business. These small nosegays were left, with his compliments, for his more active dairy customers. The flowers soon became more sought after than his milk, and since he was an astute gentleman, and after all enjoyed flowers more than dairying, a new industry was born.

From this small beginning has emerged a company that today employs more than 80 people at the main establishment in South San Francisco, and more on outlying tracts which are developed from time to time to satisfy the demands of the ever changing flower markets. Cellophane packaging of flowers, "tailored" gardenias, special tools and work procedures to make possible flower growing on a mass production basis are among the innovations credited to the McLellan name.

Today at "Acres of Orchids", the Rod McLellan organization is continuing to develop new hybrids, and expand their collections of species from the far corners of the world to increase your interest and enjoyment in orchid culture.

Their pioneering efforts have now made it possible for anyone anywhere to enjoy his own orchid plants right in his own home, and continuing experiments are being conducted to make this even easier.

On your next trip into the Bay Area, we should be delighted to have you pay us a visit. We are only 20 minutes from downtown San Francisco, and should be happy to see you. Drop in, you'll find it more than worth your time.
